- Matters Arising
- Dublin Airport Update
- Fingal County Council
 - Actions from Previous Meeting
 - Fingal County Council Update
 - Dublin Airport Planning Applications
- Update from Residents
- Chairperson Meetings
- AOB

- Dublin Airport wants to maintain and further develop the positive areas identified by the recent survey and feedback from other channels.
- Recent initiatives:
- **Community Newsletter:** refreshed version launched August 2024 and distributed widely. Distribution included the St. Margaret's and Coolquay area. Future versions will reference work of CLG and DAEWG.
- **Website Overhaul:** full review underway of 'Noise' 'Community Engagement' 'Air Quality' sections of website – development of new material and new portals to provide much more accessible information on insulation eligibility for example.
- **Noise Reports:** big focus on getting noise and operations data out into the public domain - Q1 Noise Monitoring Report now published with Q2 report coming soon. May and June monthly reports also published recently. July and August reports will be published in October

Community Fund Review

- Community Fund continues to provide strong support to the St. Margaret's community – now over €600k invested since 2017
- A full review was completed of the Community Fund including criteria, processes, documentation, applicant requirements etc.
- Strong preference expressed by survey respondents, CLG and community fund recipients, that Funds need to be distributed amongst those communities most impacted by noise.
- The review process confirmed that the existing eligibility areas are sufficient. St. Margaret's will therefore continue to be supported by Dublin Airport
- There will be some updated processes implemented:
 - strong emphasis placed on ensuring appropriate supporting documentation such as quotes and proof of location are provided with the application
 - more spot checks conducted for adherence to the terms and conditions once funding allocated – this will include how Dublin Airport's funding was acknowledged
 - application forms will be updated and an online version will be made available

2024

- Round 14 - Over €250,000 awarded to over 50 projects across the eligible areas in the community including clubs and schools in St.Margaret's.
- Round 15 – Opened for applications for six-week period for applications until Friday, October 25.

Noise Monitoring:

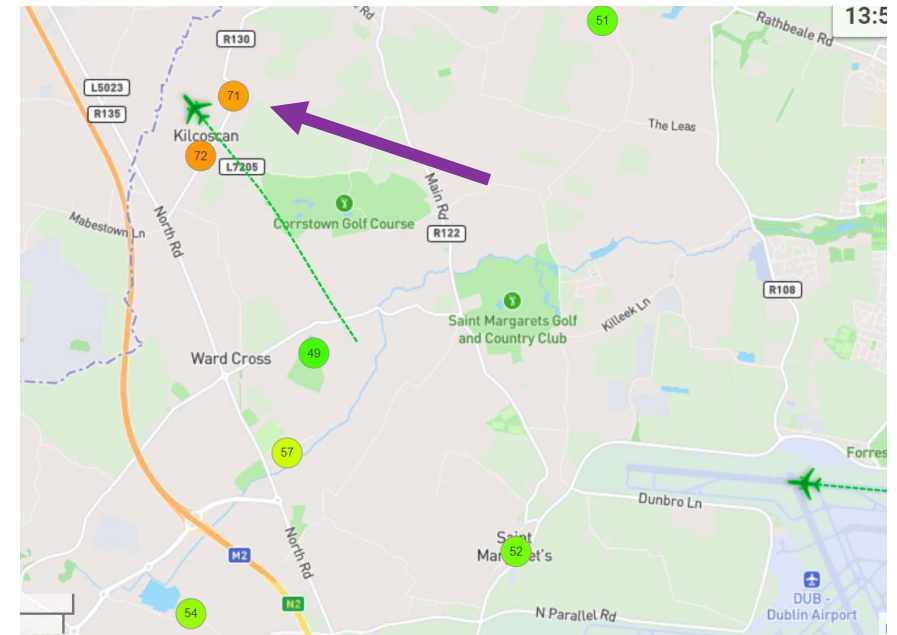

- CLG request to have mobile monitor moved from Millhead to Kilcoskan area was completed on 28 June 2024; monitor now live on WebTrak

St Margaret's The Ward Requests for Funding & Committee Engagement:

- Funding request made by St. Margaret's The Ward (SMTW) Residents Group to daa with respect to the preparation of a 'Vision Report' for the St. Margaret's The Ward area.
- Feedback received from SMTW indicated there was a strong effort to mobilise the local community to input into planning which is commendable.
- daa prepared to support this specific funding request subject to finalising details with SMTW Group.
- Offer extended by daa to meet with 6-8 members of SMTW Committee. Awaiting response from SMTW.

Voluntary Dwelling Purchase Scheme:

- Six homes now purchased under this Scheme
- Habitable homes being scheduled for insulation measures if needed
- No definitive use for homes yet however, many options considered to date
- More favourable conditions exist for short-term uses such as for airport workers

Location New Mobile Noise Monitor Kilcoskan

As normal, if there is a certain topic which CLG members would like the relevant airport experts to come and present on at the next CLG meeting, please feel free to submit the suggestion.
